1- My WordPress URL :

https://lenientnut000webhostappcom.wordpress.com/

2- The theme i used name is :

“Twenty Twenty-Two”
https://wordpress.com/theme/twentytwentytwo/lenientnut000webhostappcom.wordpress.com

3- I changed the font from bold heading (h6) into (h1) and the opposite in different paragraphs , i also used `keyboard input style` to some of the paragraphs.

4- i changed text color in different paragraphs in different pages from black(#000000) to light green(#1A4548) , also used blue highlights on different titles in different pages.
